We are counted amongst the most promising Supplier firms in the industry exhibiting excellence in the offered quality of **Chemical and Solvents**.

About Us

Established in the year **2013**, **Yukti Exim** is named as the fastest growing Supplier entity that has formed a firm reputed with its offered best in class range of **Chemical And Solvents**. We possess a wide spectrum of chemical products encompassing high in demanded range of **Alcohol Chemicals, Chlorinated Solvents, and Monomers Chemical**. Owing to our successful journey so far, we have become able to exhibit our commitment to quality that can be seen in the offered products featuring highly beneficial properties of pure formation, accurate composition, precise pH values, good consistency, moisture proof packaging, longer shelf life, and equitable pricing structure.

We encourage social and environmental concerns, and in order to operate in a sustainable business upbringing we partner with industry leading vendors whose manufacturing standards are renowned in the marketplace. Our team works with a simple idea of supplying the best in class, which equips us to build a robust and sustained infrastructure that reflects our pursuit of excellence. Moreover, the empowerment of our team members is the biggest aspect in our success, as our assiduous workforce put every possible effort to source, stock and supply top rated chemicals across the industry.

The visionary approach and focused outlook towards quality of our leader and mentor **Mr. Haresh Madia** truly helped us to enlarge our commercial footprint in such a short span of time. His immense knowledge and expertise motivates every team member to bring added value with the sourced chemicals.
